ROCHESTER LOOKING DRAGON REPORT IS FEBRUARY OUTPUT BETTER THAN EVER

Rich Ore Goes Down and Declared Prospects for Open-Limits of District Are Extending.

John F. Cowan, who has just returned ings that have been operated for the past year are holding out well and ore has been found in new localities, some of which are materially extending the limits of the district. Another factor that makes for the long life of the camp is the fact that in addition to the high-grade, vast bedies of milling ore are being seovered and blocked out.

Speaking of the Rochester Mines company, in which he, Herry Hunter and other Sait Lakers are interested, Mr. Cowan said all four of the leases on the property are shipping a good grade of gold ore and are doing well. Lean atreaks are found in the workings now

atreaks are found in the workings now and then, but persistence in following the ore is invariably rewarded by the 'inding of new bodies of good size.

On the No. I lease, which has been a hig shipper, they are now extending the drift through a barren formation, with indications that more pay dir will soon be encountered. The other three leases are looking exceptionally well, especially the Carsten lease, where they have some of the best one found in the camp at a cepth of see feet from the surface. This is the deepens workings in the camp and the ledge laws a dip of about 56 degrees, proving that the pay ore makes to a still sreater depth.

The original Ruchester Mining company ground now operated by McInton & Pitts, is yielding excellents. They are

The original Rochester Mining company ground, now operated by McIntosh & Fitts, is yielding excellently. They are now shipping from four feet of \$100 ore, in which the values are almost equally divided between gold and sirver. This is coming from a depth of only sixty feet. The Camille Rock lease on the Nonzel Crown Point, lease No. 2, has made a splendid strike of seven to eight feet of ore going \$25 and better. Two feet of this next to the handing wall, is said to go \$30 to the ton. This lease is at the extreme north end of the helt and makes the zone 2000 feet long, with extensions promised further north. Extending, as it does the defined ore zone of the district, renders this strike of special importance. The Buck and Charlie, in Lower Rochester, has developed ten feet of \$18 ore.

Rochester, has developed ten feet of \$18 of the Control of the Con

Silver King Con. Looking Well. The Silver King Consolidated is shipping about fifty tons a day when the roads will permit. The roads have been getting so soft recently that only small loads can be hauted. The excellent showings of one development in the mine contine. A winze sunk thirty feet below the 1550 level is still in good ore.

Ore and Eullion'

McCornick & Co., bankers, announced the receipt yesterday of ore valued at \$75,000, and builton shipped out valued at \$75,000, a total movement for the day of \$150,000.

Ore Shipments.

The Utah Ore Sampling company re-leased resterday eight carloads of ore from Utah mines, three from Nevads and two from Colorado. Boston Mining Stocks.

QUITE OPTIMISTIC

ing New Ore Bodies Were Never Better.

PROVO, March 9 .- Secretary W. I. from Rochester, says the camp looks bet-ter to him than ever before. The work-of the Dragon Consolidated Mining company for 1913. Extracts from the repor-

no additional property has been acquired, and the only change in the mine equipment has been the installation of a small electric pump to handle the flow of water encountered on the 800 level.

A small tennage of iron ore was shipped to the smelters up to December, 1913, but at that time shipments

shipped to the smeiters up to December, 1915, but at that time shipments were temporarily discontinued at the request of the smelting company. There is a large tonnage of this class of ore blocked out, some new ore of this class being developed during the year, and the mine is in shape to ship heavily when conditions are such that the smelters can handle our output.

Most of the quarts ore shipped for the period came from the north end of the property, through the Iron Blossom and Elack Jack shafts and copper ore through the Black Jack. At the present time our shipments are limited, due to the fact that the ore is low grade, and it is desmed advisable to hold for mill treatment. Development during the year has been very gratifying. The surface tunnel commencing from a point on a level with the grade of the Eureka Hill Rallway company, mentioned in the last annual report, has been extended along the Governor vein for a distance of 1700 feet, developing a large quantity of mill ore. The completion of this timned has also made it possible to reduce the cost of mining the ore above the tunnel at least 150 per cent. Connections were made with the old "Black Dragon" workings, and a considerable amount of colling ore has been developed there.

While we only have a small amount of rommercial ore in sight, we feel that the prospects for opening new ore bodies were never better, and the extensive development campaign now being conducted will without doubt bring satisfactory results.

being conducted will withou bring satisfactory results.	t doubt

LOSS AND GAIN ACCOUNT. Park's Future Bright.

Never was the future of Park City brighter than at present. The old properties have vast ore reserves blocked out and many new properties will be placed on the producing list. Several new mills are in contemplation, pay rolls will be increased, business will grow and the city prosper.—Park City Becont.

Ross Goes to Mine. President A. S. Ross of the Pittsburg-Idaho goes to the mine at Gitmore Ida-ho, today. He will be accompanied by Fred A. Earls, mining engineer, who, for some time, has been with the United States Exploration company, with offices at Los Angeles.

Michigan-Utah Lessees Shipping. The Cliff Mining company, leasing that part of Michigan-Utan estate at Alta above the Cleaves tunnel, is now shipping ore over the tram to Tanner's Flat, thence to Wasatch by team.

Metal Market. Metal prices posted in vesterday's Sait Lake market were as follows: Silver 584 cents; lead, 24; copper, \$14.10.

Mining Notes. Manager Grant Snyder goes to Ophir stay to take a look at the Cliff mine. Rollo E. Clapp. consulting engineer for Tomogali of Nevada
the fourthwestern Pacific railroad and the Tomogali of Nevada
the fourthwestern Steel company, two or
ganizations that are to be organized soon,
has gone to Chicago to confer with the
men who are to organize the companies.

OF BUTTE-DULUTH

Special to The Tribune.

BUTTE, March 9.-The Butte-Duluth Copper company during February pro-duced 105,000 pounds of copper, 65,000 pounds of electrolytic and 40,00e pounds of precipitate, 2200 pounds of ore having been treated in the leaching plant, from which an extraction of 89 per cent was made. The February production cost is slightly under 9 cents a pound. All the machinery for the crusher plant is on the ground. This crusher weighs forty tons, and is capable of crushing 1000 tons of ore every eight hours. When in operation it is calculated that it will further reduce the production costs. The Entre-Duinth is installing the first electric unit of 1000 tons capacity per twenty-four hours, which complete unit is expected to be in operation within about three months.

The deal with the American Melais company for financing the operations of the Butte-Duinth has fallen through, according to Captain A, B, Wolvin, president of the latter company. Captain Wolvin is now negotiating with other New York interests in connection with the financing of the Butte-Duluth. pounds of electrolytic and 40,000 pounds

BUSINESS ON CHANGE **EXCEEDINGLY SMALL**

While in general prices of issues that have been active of late held firm of the exemange yesterday, there came preity near being no trading at all, there being but six sales at the two sessions for a total consideration of \$440.50. This was explained by the fact, according to a member, that while brokers had a good many orders for execution they were nearly all limited to certain prices, which, it most instances, were lower than those now prevailing. those now prevailing.
Silver King Coalition sold 100 shares at \$3.124, and all the other sales were of low-priced stocks.

Closing quotations were as follows:

OGDEN DEPARTMENT FUNERAL OF RIDGES

ANSWER AMENDED IN MATHEWS CASE

Suing to Recover Balance for His Services.

Special to The Tribune.

the court that the words are irrelevant and do not constitute a defense in the action.

The deputy brought suit against Moroni Skeen, William C. Hunter and John T. Bybee, county commissioners, in an effort to recover \$42 for services performed in the assessor's office when the board refused payment of the per diem on the ground that the assessor, Thomas Mathews, was not spending enough of his time in the office.

The decision of Judge Harris bears on the most important contention in the case, namely, the extent of the control which may be exercised by the county board over other officials and appointees and the extent of their terms of service. In this particular instance it is held that the assessor, the elective official, and not the commissioners, is responsible for the operation of the office so long as the work is being performed according to law, Judge Harris's decision, in part, it as follows:

I do not think the statute contemplates that the commissioners
should have any such authority (direction of the details in the assessor's
office), but that the assessor should
be the judge of the manner of the
performance of his duties, and that so
long as they are properly performed
the commissioners have no voice
whatsoever in the matter. If the assussor should fail to perform any particular duty, the commissioners may
direct such performance, and may direct a prosecution, if necessary, for
such delinquency, and there their
authority ends.

Resignations Are Accepted.

Resignations Are Accepted.

Special to The Tribune.

OGDEN, March 3.—Dissension marked the action of the board of city commissioners tonight in accepting the resignation of the three park commissioners as submitted to Mayor A. G. Fell last Saturday. Commissioner Chris Flygare, to whom it is proposed to delegate the work of the park board, voted against the motion to accept, on the ground that the state law made no provision for abolishing the park commission. He was alone in this stand, Mayor Fell and Commissioner T. S. Brawning voting to accept the foint resignation, and this action was taken.

Unique Case Reopened. Special to The Tribune.

OGDEN, Marcir 9,-The case of Mrs. oulse Van Dyke against the Ogden Sav-Louise Van Dyke against the Ogden Savines bank in an effort to recover on a deposit of \$400 alleged to have been drawn out on forged orders, was reopened for the introduction of additional direct evidence by the defendants today. An objection was made by the attorneys for the plaintiff against the introduction of evidence in rebuttal when the defendants had introduced no direct evidence bearing on the point, Judge J. A. Howell sustained the objection.

Stubborn, Annoying Coughs Cured.

"My husband had a cough for fifteen years and my son for eight years.
Dr. Ring's New Discovery completely
cured them, for which I am most thankful," writes Mrs. David Moor of Saginaw, Ala. What Dr. King's New Discovery did for these men, it will do
for you. Dr. King's New Discovery
should be in every home. Stops hacking coughs, relieves la grippe and all
throat and lung ailments. Money
back if it fails. All druggists. Price
50c and \$1.00. H. E. Bucklen & Co.
Philadelphia or St. Louis.

(Advertissment.) Stubborn, Annoying Coughs Cured.

DECREASE SHOWN IN COPPER STOCKS

Domestic deliveries for February were practically unchanged from the preceding months, but foreign demand declined almost 4,000,000 pounds. Total production aggregated 122,581,007 pounds.

The figures for the last three months follow.

WADLEY STRIKE GETS BIGGER AND RICHER

Issae and J. E. Wadley came down om the mines of American Fork canyon react and J. E. Wadley came down from the mines of American Fork canyon last Friday on anowshoes as far as Deer Creek, from which point they came down with a wagon, says the Lehl Banner.

The Wadleys's lense on the Miller mine is boding out well: in fact, is growing larger as development progresses. They have 500 sacks of ore on the dump ready for shipment, and which will assay about 70 per cent lead and seventy ounces in silver.

and sluggish liver, and a tonic to the bowels, which are improved by their use. Try them. They do not fail to give relief and satisfaction. Schramm-Johnson, Drugs; "The Never-Substitution of the substitution of disease should be promptly expelled from the blood. This is a time when the system is especially susceptible to them. PIONEER TRAIN

Deputy County Assessor Is John Q. A. Beck Dead in Ogden After a Lingering Illness.

OGDEN, March 9.—Without passing on the merits of the case as to whether J. A. aged 65 years, a railroad telegraph operator and dispatcher for thirty-six years, Mathews, a deputy county assessor, is after and dispatcher for thirty-six years, entitled to recover \$42 from Weber died at his home, 437 Twenty-fourth ounty for services performed in October, street, at 1:45 o'clock this afternoon, fol-1913. Judge N. J. Harris rendered an ex-tended decision today granting the petition of the plaintiff to strike out from health, his death being largely the result

tion of the plaintiff to strike out from the defendant's return and answer the words "during the pleasure of the board of county commissioners." It was held by the court that the words are trrelevant and do not constitute a defense in the action.

The deputy brought suit against Moroni Skeen, William C. Hunter and John T. Bybec, county commissioners, in an effort to recover \$42 for services performed in the assessor's office when the board refused payment of the per demon the ground that the assessor, Thomas Mathews, was not spending enough of his time in the office.

The decision of Judge Harris bears on the most important contention in the case, namely, the extent of the control which may be exercised by the county board over other officials and appointees and the extent of their terms of service. In this particular instance it is held that the assessor, the elective official, and not the rommissioners, is responsible for the upseration of the office so long as the work is being performed according to law. Judge Harris's decision, in part, is as the being targely the result of heatth, bis death being largely the result of heatth, bis death being largely the result of heatth, his death being largely the result of heatth, his death being largely the result of hardening of the arteries.

Born in Madison, Ind., on October 21, 1848, Mr. Beck came weet when a young man and spent the remainder of his life in lowa. Wyoming and Utah. As one of the ploneer train dispatchers of the Union Pacific railroad in 1859, At that time he was located at Laramile. Wyo. Later and can be many and Utah. As one of the plane train dispatchers of the union 1859, At that time he was located at Laramile. Wyo. Later and can be many and union 1859. At In lowa, survive him.

The body was removed to the Kirkendall undertaking establishment pending
the arrangements for the funeral.

> MARTIN CASE GOES OVER. Continuance Granted on Plea of Defense

and Consent of Prosecution. Special to The Tribune.

Special to The Tribune.

OGDEN, March 9.—Another continuance was granted by Judge J. A. Howelf today in the case of Joseph Henry Martin, the alleged blackmailer. The opening of the important trial was set for next Thursday and will now be taken up on Monday, March 16. The motion for the continuance was made by Soren X. Christensen, attorney for the defendant, and District Attorney John C. Davis gave his consent.

The principal reason for the granting of the request was the fact that Judge Howell must make a trip to Farmington on Saturday and if the case was opened next Thursday it would scarcely be under way before the continuation until Moday. Attorney Christensen explained that he had been so busy in Sait Lake that there were one or two matters in connection with the proposed defense that had not been completed.

Martin's attorney still contends that he will move for a change of venue before the case is taken up for trial. The district attorney is prepared to resist this action.

FEDERAL COURT OPENS.

Special to The Tribune. OGDEN, March b.—With Judge John A. Marsholl of Salt Lake presiding, the federal court for the northern division of Utah was opened this morning and a federal grand jury entered upon its inbors this afternoon. Because of several important cases to be considered the final report of the jury is not expected for ten days or two weeks.

Marriage Licenses. Special to The Tribune.

Special to The Tribune.

OGDEN, Marc'i 9.—Marriage licenses were granted today to Percival Walker Selby, Redwood City, Cal., and Loulse Meserall Barrett, Brocklyn, N. Y.; Theodore Rose and Mrs. Mildred Lindsay, both of Salt Lake City. W. Edward Crandall and Mrs. Mary R. Barrett, both of Salt Lake City. Arthur E. Stratton, Riverdale, March. and Maggie Wadsworth, Shelby, Idaho; Albert D. Johnson and Mebrey Altman, both of Ogden.

Order Special Election. Special to The Tribune.

OGDEN, March 9.—Acting on a petition received at today's meeting, the county commissioners granted a request for a special road tax election to be held in the Harrisville district. The date of the proposed election was not fixed.

Kickapoo Worm Killer Expels Worms. The cause of your child's ills—The foul, fetid, offensive breath—The starting up with terror and grinding of teeth while asleep—The sallow complexion—The dark circles under the eyes—Are all indications of worms, Kickapoo Worm Killer is what your child needs it expels the worms, the cause of the The statement of the Copper Producers' association for February shows an unexpected decrease in stocks on hand of \$,924,833. compared with the previous month.

Domestic deliveries for February were practically unchanged from the preceding months, but foreign demand declined almost 4,000,000 pounds. Total production aggregated 122,284,007 pounds.

SAN JUAN COUNTY FORGING TO FRONT

Proposed Railroad Will Bring Region Out of Isolation; Much Farm Land Is Available.

San Juan, so long considered as an isolated and barren region, is forging to the fore rapidly, and has a destiny as great as any section of the souther

from the mines of American Fork canyon last Friday on anovaloes as far as Deer Creek, from which point they came down with a wagon, says the Lehl Banner. The Wadleys's lense on the Miller mine is bolding out well; in fact, is growing larger as development progresses. They have 500 sacks of ore on the dump ready for shipment, and which will assay about 70 per cent lead and seventy ounces in silver.

Heing unable to get any more sacks in which to put their ore, they have been spending the past asveral weeks blocking out the cre, and have a great deal or are ready to sack soon as the sacks can lie gotten up there. The ore body has increased in size so that it is now six sets wide and two deep.

The ore body lies on a bedded plane parallel to the one that made the Tyngs wealthy. From present indications the new strike may develop into a body bigger and richer than the Tyngs. The Wadley brothers will go back to the canyon Monday.

The Cathestic Tablets are cativals.

Foley Cathartic Tablets are entirely effective, thoroughly cleansing and always pleasant in action. They contain blue flag, are a remedy for constipation and sluggish liver, and a torongh San Juan county in a southwesterly direction, running ultimately to San Diego, Cal. It will make possible the development of a great region, the only drawback of which has been its isolation and lack of transportation facilities."

TO BE HELD TODAY

Music, that he loved so well, and t DISPATCHER DIES

Minic, that he loved so well, and to which he afforded the means of expression, will feature the obsequies of Joseph H. Ridges, builder of the world-famous labernacle organ of Salt Lake City. The funeral services will be held in the Twenty-second ward chapel, Third North street between Third West and Fourth West streets, at 2 o'clock this afternoon.

The casket will be open at the residence, 427 West Third North street, from 12 o'clock noon to 1:30 p. m., in order that friends and relatives may view the body for the last time.

Mr. Ridges, who died Saturday evening, at the age of 89 years, closed peacefully a long career of usefulness to both church and community. Professor Evan Stephens, leader of the musical programme for the funeral. The Whitney-Spencer-Ensign-Pyper male quartette will sing two numbers; Charles R. Pike, buritone, will sing a solo: Willard E. Welhe, violinist, will play one selection, and Mrs. Lizzle Thomas Edward, soprano, will sing Handel's "Angels, Ever Bright and Fair. Professor J. J. McChellan, tabernacie organist, will play the accompaniments.

The tabernacic choir, through a committee comprising Daniel J. Lang, Joseph A. White and W. N. B. Shepherd, acting upon the suggestion of Professor Stephens, Sunday afternoon adopted the following resolution out of respect to Mr. Ridges.

Whereas, Our Heavenly Father, in all wisdom, has called our venerable and exteemed brother. Joseph H. Ridges, from our midst to his reward, we, the officers and members of the tabernacle choir, who have for so many years been closely associated with the result of his gentus in the construction of the great organ whose rich tones have touched the 'acarts of thousands from far and near, and which will be a lasting monument to his memory, hereby express our sincere sympathy and condolence to his wife and family, and pray that our Heavenly Father will comfort them in this hour of their bereavement, and we request the secretary to spread a copy of file resolution upon the records of the choir.

Pallbearers at the funeral will be grandsons of Mr. Ridges.

DALY-JUDGE MINING COMPANY.

The regular quarterly dividend of the Daly-Judge Mining company of 15 per cent, aggregating \$45,000, being dividend No. 12, has been declared payable April 1, 1914, to stockholders of record at close of business March 20, 1914, on which date the transfer books will close, and reopen on April 1, 1914. on April I, 1914.
